

AMENDMENTS TO THE CLAIMS

1. (currently amended) A nebulizing pad, comprising:

a flap; and

an absorbent central core, comprising a nebulizing agent, attached to the flap,

wherein the flap includes an adhesive coating.
2. (original) The nebulizing pad of claim 1 wherein the adhesive coating is pressure-sensitive.
3. (original) The nebulizing pad of claim 1 wherein the adhesive coating includes one or more adhesive strips.
4. (original) The nebulizing pad of claim 1 wherein the flap is shaped as an arched rectangle.
5. (original) The nebulizing pad of claim 1 wherein the flap is flexible.
6. (original) The nebulizing pad of claim 1 wherein the absorbent central core is made of one or more materials from the group consisting of fabrics, natural fibers, synthetic fibers and cellulose derivatives.
7. (original) The nebulizing pad of claim 1 wherein the absorbent central core includes one or more portions that are pervious to liquids.
